

Arya Kumar Sundaram

Node JS Developer

PROFESSIONAL SUMMARY

Innovative Node.js Developer with expertise in JavaScript, RESTful API development, and database management using MongoDB and MySQL. Adept at collaborating with cross-functional teams to deliver reliable solutions. Highly skilled in leveraging Generative AI and quickly adapting to new technologies to enhance backend systems.

PROJECTS

1. Hotel Rooftop Blog | |

JavaScript | React | Node.js | Express.js | MongoDB | CSS3 | Responsive Web Design

- Collaborated with frontend and design components using React.js to build an interactive UI for blog management.
- Developed secure user authentication and authorization mechanisms using Express.js to manage user accounts.
- Utilized MongoDB to design and manage the database schema, enabling efficient data retrieval and storage.

2. Casio Website Clone | |

JavaScript | Git | HTML5 | CSS3 |

Responsive Web Design | Bootstrap

- Assisted in developing a user registration and login system, ensuring secure access to user accounts.
- Contributed to the implementation of a product display feature, allowing users to sort and filter products efficiently.
- Supported the creation of a responsive checkout page, facilitating seamless user experience for adding items to the cart.

3. Journey Nest | |

Git | Node.js | Express.js | MongoDB | HTML5 | CSS3 |

Responsive Web Design | JavaScript | EJS | Passport.js

- Designed and developed secure login and signup functionalities using Node.js and Passport.js to ensure secure user authentication.
- Built and maintained RESTful APIs with Express.js to enable seamless integration with frontend components and MongoDB database.
- Enabled community interaction by allowing users to leave comments and reviews, enriching the user experience and fostering engagement.
